EDUCATION

Bachelor of Computer Application

Oxford College of Engineering and Management

2021 - Present

ACCOMPLISHMENTS

- **Certified in Responsive Web Design** by freeCodeCamp, demonstrating proficiency in building mobile-friendly, responsive websites.
- **Certified 4-week Web Development Internship** at Encryptix, where I successfully delivered projects like a Landing Page, Portfolio, Calculator, and Tribute Page, applying modern frontend development techniques.

PROFILE

Passionate frontend developer with knowledge on HTML, CSS, and JavaScript, eager to apply skills in building responsive, user-friendly web applications. Quick learner with experience in modern frameworks like React, ready to contribute to innovative projects.

WORK EXPERIENCE

Web Development Internship

Encryptix

During my internship at Encryptix, I successfully built and delivered the following projects:

- **Landing Page:** Designed and developed a responsive landing page using HTML and CSS.
- **Portfolio:** Created a personal portfolio to showcase skills and projects using modern web technologies.
- **Calculator:** Implemented a fully functional calculator with proper grid alignment and responsiveness.
- **Tribute Page:** Developed a tribute page utilizing the Flexbox concept for an engaging user interface.

PROJECTS

- **College Blog Platform**
Developed a responsive College Blog using React for the frontend and Laravel for the backend. Designed the UI, implemented blog creation, commenting, and user authentication, and contributed to API integration.
- **Pragya Academy - School Website**
Designed and developed a school website for Pragya Academy, ensuring a user-friendly interface, responsiveness and dashboard.
- **Satya Khabar - News Portal**
A responsive Laravel-based news portal with a clean, user-friendly interface. Features include dynamic news categorization, a comment section, and search functionality, providing an intuitive reading experience across devices.
- **Rock Paper Scissor Game**
Developed using HTML, CSS and JavaScript. Features include real time score updates between user and computer.
- **Country API**
Implemented a react based to fetch and display country data from public country API. Features include search functionality, dropdown based on region and detailed information of country.
